DCS 760

KODAK PROFESSIONAL DCS 760 Digital Camera
The speed and range to capture great images, anywhere

Just keep shooting – and get great images, anywhere you go. With the DCS 760 Digital Camera, you can set the ISO from 80 to 400 and take a burst up to 24 frames, 1.5 every second, before writing to the PC card. Whether you use the DCS 760 for weddings, portraits, or commercial applications, you'll capture the shot you need. You'll have the most advanced digital controls and the SLR functionality of the flagship NIKON F5 Camera. All at a competitive price.

Make beautiful 16 x 20-inch prints or full-page ads with confidence. Kodak's 6-million pixel CCD (3032 x 2008) is market-proven to deliver superb images. And image review will be better than ever with the new large, bright, color LCD panel. In addition, its graphical user interface (GUI) has several innovative features, such as 1:1 focus check and a spot densitometer.

- Burst depth up to 24 frames, 1.5 every second

- ISO up to 400

- Resolution for full-page ads or 16 x 20-inch prints

- Market-proven professional digital and SLR functionality

- Larger, brighter LCD panel with unique interface

- New stand-alone software applications

The DCS 760's lightweight, rugged metal-frame body is constructed for durability and offers reliability in challenging conditions; and the removable, rechargeable battery captures 300 shots. The DCS 760 also offers composite video out and a removable IR filter; you can also get an optional, removable anti-aliasing filter.

New software is included with the camera to support studio applications – KODAK PROFESSIONAL DCS Photo Desk and KODAK PROFESSIONAL DCS Camera Manager. Or you can use third-party software. It's your choice.

DCS 760 – the professional digital camera that combines Kodak's technology, speed, and range – for great images, anywhere.

- 12-bit dynamic range
- Composite-video out—NTSC or PAL
- Internal microphone for voice recording

System recommendations

PC

- WINDOWS 2000, WINDOWS 98 SE, WINDOWS ME, or WINDOWS NT 4.0 Systems
- 233 MHz PENTIUM II Processor or greater
- 128 MB RAM minimum, 256 MB RAM recommended
- 200 MB minimum free disk space
- IEEE 1394 PCI adapter cards (if tethered without on-board 1394 port)

Macintosh systems

- MACINTOSH OS 9.04 or greater
- 300 MHz Power PC G3 or newer
- 128 MB RAM minimum, 256 MB RAM recommended
- 200 MB minimum free disk space
- IEEE 1394 PCI adapter card (if tethered without on-board 1394 port)

Specifications

- ISO Settings: 80 to 400
- 6-megapixel CCD (3032 x 2008)
- 18 MB finished file size
- Bit depth: 36-bit color (12 bits per color) original capture
- Removable, rechargeable NiMH battery
- IR filter included
- 1.3X focal length
- Dual PC card slots,Type II, III
- Optional anti-aliasing filter
- Size: 7.6 in. (194 mm) tall, 6.2 in. (158 mm) wide, 3.4 in. (88 mm) deep
- Weight: 4.1 lbs (1.86 kg) with battery and PC card, without lens
- Conforms to FCC Class B, CE Mark
- Class B Declaration, VCCI Class 2 Certified
