HS-1800 Film Scanner

The HS-1800 is a high-capacity scanner that handles a wide variety of film types. A TWAIN driver is included as a standard feature, so the unit can be connected to a PC and used as a stand-alone scanner. Connect this unit to a PC with EZ Controller Software and a Noritsu digital printer (both sold separately) to produce a minilab configuration.

- Digital ICE, which corrects dust and scratches on the base layer of film, is included as a standard feature.
- Noritsu Digital Masking, which corrects dust and scratches on the emulsion layer of film, is available as an option.

Film Carriers Available:

- 135/240AFC-II
- 135AFC-II
- 120AFC-II
- 110AFC-II
- 135/240AMC-II
- 135/240MMC-II
- Multi-film Carrier

- Reliable LED light source
- Simple USB 2.0 connection
- Approximately 41.0 lbs.

Film Type	Approx. print size	Scanning resolution (Pixels)	HS-1800 Approx. Capacity* (frames/hr)
135F (24exp)	3.5" x 5"	1037 x 1565	2210
	4" x 6"	1037 x 1565	2210
	5" x 7"	2075 x 3130	460
	12" x 18"	4492 x 6774	88
IX240C (25exp)	3.5" x 5"	1406 x 2110	1320

	4" x 6"	1406 x 2110	1320
	12" x 18"	3043 x 4567	170
120 **(6 x 4.5)**	3.5" x 5"	2412 x 1766	1200
	4" x 6"	2412 x 1766	1200
	12" x 18"	4824 x 3533	200
MMC **135F**	3.5" x 5"	966 x 1482	320
	4" x 6"	966 x 1482	320
	5" x 7"	1933 x 2964	300
	12" x 18"	4184 x 6415	73
