FotoPrint™ Digital Printers

Why purchase a Sienna FotoPrint?

- *Unsurpassed value*: Produces higher quality images than laser or ink jet printers.
- *Low cost per print:*: At 35 cents per print, savings easily cover monthly lease payments.
- *Superior productivity*: The FP3000 produces approximately 107 standard 8x10 prints per hour allow for quick recovery of investment. (FP5000 will print up to 50 12x18 prints per hour).
- *Media flexibility*: Your choice of any standard RA4 media relieves you from the limitations of using expensive, proprietary media
- *Cross-platform compatibility*: Photographs are produced directly from PCs, Macs, or UNIX computers using digital, PostScript, and Photo CD files.

The FP3000, with a maximum image size of 8x10, is perfect for:

- business and greeting cards
- invitations and announcements
- overheads, report covers and other presentation graphics
- menus
- brochures
- sport and class photos

FotoPrint™ 3000/5000

SIENNA IMAGING

Where Technology Meets Opportunity

FotoPrint™ 3000/5000

FotoPrint digital color printers lead the revolution in digital photography and short-run printing technology. Utilizing Sienna's patented high resolution Fiber Optic Imaging™ technology, FotoPrint printers produce sharp, archivally permanent output at a fraction of the cost of other printing methods.

By combining digital imaging technology with standard RA-4 photographic media, FotoPrint produces full-color photographic prints from PCs and MACs with standard digital, PostScript, and PhotoCD files. For less than 35 cents an 8x10 inch print, FotoPrint yields more than 100 prints per hour.

The FP3000 produces print sizes up to 8-1/2" x 11" while the FP5000 can produce sizes up to 12"x18". A variety of accessories are available to customize FotoPrint to each customer's specific needs and business goals.

- Fast, continuous operation using standard, low-cost photographic media.
- For less than 35 cents a 8x10 inch print, print savings easily cover monthly payments, even at lower volumes.
- Produces real digital photos on standard RA-4 materials-- glossy, matte, luster, or clear media.
- Great for portraiture, brochures, invitations, greeting cards, business cards, promo flyers, customized event photos, sports photos, overhead presentations, index prints, and more.
- Compatible with most index print systems and copy print kiosks.
- Daylight Operation: Once media has been loaded into the light tight dispenser, it can be inserted and removed from the FP in daylight conditions.
